## SKILLS

- **Languages:** C++,Java, JavaScript, C, PHP
- **Frameworks:** HTML and CSS, Bootstrap, NodeJS, ReactJS
- **Tools/Platforms:** MySQL, MongoDB
- **Soft Skills:** Strategic Problem-Solver,Collaborative Drive,Adaptable Strategist,end-to-end project execution expertise

## PROJECTS

### • **Peetzaah – React-Based Web Platform for Pizza Enthusiasts:** **June 2024 - October 2024**

Peetzaah is an innovative web platform designed for pizza lovers, offering a curated collection of recipes, pizzeria recommendations, pizza-making tutorials, and community engagement features  
I have developed the front-end using React.js, ensuring an intuitive UI and seamless navigation while integrating community engagement features  
On the backend, I managed Node.js and MongoDB, handling API requests, user authentication, and performance optimization  
**Tech:** HTML, CSS, Javascript, Bootstrap, React.js, Node.js, MongoDB, Express.js.

### • **Tripify – AI-Powered Travel Planning Platform:** **February 2024 - May 2024**

Tripify is an innovative web platform designed to simplify and enhance travel planning. It provides personalized recommendations, real-time travel updates, budget planning tools, and seamless booking options  
I worked on the AI-driven recommendation system, built APIs, and integrated real-time data sources for personalized travel planning  
I also contributed to budget planning tools, seamless booking features, and the travel community platform while focusing on security and scalability  
**Tech:** HTML, CSS, JavaScript, Node.js, Express.js, MongoDB.

### • **Gadgetpedia – e-commerce platform:** **September 2023 – December 2023**

platform designed for purchasing and browsing electronic gadgets  
I developed a dynamic and user-friendly e-commerce platform for electronics using React.js for the front-end, ensuring a seamless UI and responsive design  
On the backend, I implemented Node.js and Express.js, handling API development, user authentication, and data management with MongoDB. I also worked on integrating a search and filtering system, enabling users to browse gadgets efficiently  
**Tech:** HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB.

## CERTIFICATES

- |  |               |
|--|---------------|
| • DevOps Engineering - Planning to Production        | January 2025  |
| • Generative Ai                                      | April 2024    |
| • Design Analysis and Algorithm                      | April 2024    |
| • Mastering Data Structures and Algorithms using C++ | November 2023 |
| • Complete Programming in C++                        | November 2023 |
| • Mastering in Computer Networks                     | November 2023 |

## ACHIEVEMENTS

- **Secured University Rank 1<sup>st</sup> with group:** **December 2024**  
Among 16k+ participants in Entrepreneurial bootcamp.

## EDUCATION

- |   |                         |
|---|-------------------------|
| • <b>Lovely Professional University</b>                                       | Punjab, India           |
| • <i>Bachelor of Technology - Computer Science and Engineering; CGPA: 6.9</i> | Since August 2023       |
| • <b>Government polytechnic college</b>                                       | Mahabubnagar,Telangana  |
| • <i>Diploma: Percentage: 84%</i>   | April 2020 - March 2023 |
| • <b>SPR school of Excellence</b>   | Ghatkesar,Hyderabad     |
| • <i>Matriculation; Percentage: 85%</i>                                       | April 2012 - March 2020 |
